Date: March 27, 2020

Independent Auditors' Report

To the Board of Directors of Min Aik Precision Industrial Co., Ltd.:

Opinion

We have audited the consolidated financial statements of Min Aik Precision Industrial Co., Ltd. and its subsidiaries ("the Group"), which comprise the consolidated statement of financial position as of December 31, 2019 and 2018, and the consolidated statement of comprehensive income, changes in equity and cash flows for the year ended December 31, 2019 and 2018, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2019 and 2018, and its consolidated financial performance and its consolidated cash flows for the year ended December 31, 2019 and 2018 in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the International Financial Reporting Standards ("IFRSs"), International Accounting Standards ("IASs"), interpretation as well as related guidance endorsed by the Financial Supervisory Commission of the Republic of China.

Basis for Opinion

We conducted our audit in accordance with the Regulations Governing Auditing and Certification of Financial Statements by Certified Public Accountants and the auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Certified Public Accountants Code of Professional Ethics in Republic of China ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. The key audit matters that, in our professional judgement, should be communicated are as follow:

1. Inventory Valuation

   Please refer to Note 4(h) "Inventory" and 5 of the notes to consolidated financial statement for the accounting policies on inventory measurement and significant accounting assumptions and judgments, and major sources of estimation uncertainty, respectively.

Description of key audit matter:

The Group's inventory are measured at lower of cost and net realized value. The Group's products may be obsolescent or do not meet the market requirement due to new product release or market change. Besides, the automatic products are customized based on specific client's need. Thus, the cost of inventory may exceed its net realizable value. Moreover, the sales ability of products may affect the inventory valuation, which also need to be taken into serious consideration. Therefore, the inventory valuation is considered to be the key audit matters.

How the matter was addressed in our audit:

Our principal audit procedures included understanding the Group's policies of inventory valuation to assess the appropriateness of its inventory valuation; on a sampling basis, testing the Group's inventory aging report to verify its correctness; understanding and testing, on a sampling basis, the selling price that the management used, or reviewing the subsequent sales of the inventories to assess the appropriateness of the net realizable value.

Other Matter

Min Aik Precision Industrial Co., Ltd. has additionally prepared its parent company only financial statements as of and for the years ended December 31, 2019 and 2018, on which we have issued an unqualified opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Regulations Governing the Preparation of Financial Reports by Securities Issuers and IFRSs, IASs, interpretation as well as related guidance endorsed by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including the Audit Committee) are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Cheng-Chien Chen and Yung-Hua Huang.

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

(1) Company history

Min Aik Precision Industrial Co., Ltd. (the "Company"). was incorporated on January 18, 2001, as a company limited by shares and registered under the Ministry of Economic Affairs, ROC. The Company's shares were listed on the Taiwan Stock Exchange (TWSE) on January 6, 2016. The address of its registered office is No. 2, Guorui Rd., Guanyin Dist., Taoyuan City. The Group mainly engages in the processing and manufacturing of electroplating of aluminum and copper products, precision stamping components and electroless nickel plating.

The Company's subsidiaries mainly engage in the design, manufacture, sale, and after-sales service of medical injection, molding and automatic machines.

The consolidated financial statements comprise The Group and subsidiaries (together referred to as the "Group" and individually as "Group entities") and the right to the Group's associates.

(2) Approval date and procedures of the consolidated financial statements:

These consolidated financial statements were authorized for issuance by the Board of Directors on March 27, 2020.

(3) New standards, amendments and interpretations adopted:

(a) The impact of the International Financial Reporting Standards ("IFRSs") endorsed by the Financial Supervisory Commission, R.O.C. ("FSC") which have already been adopted.

The following new standards, interpretations and amendments have been endorsed by the FSC and are effective for annual periods beginning on or after January 1, 2019.

New, Revised or Amended Standards and Interpretations	Effective date per IASB
IFRS 16 "Leases"	January 1, 2019
IFRIC 23 "Uncertainty over Income Tax Treatments"	January 1, 2019
Amendments to IFRS 9 "Prepayment features with negative compensation"	January 1, 2019
Amendments to IAS 19 "Plan Amendment, Curtailment or Settlement"	January 1, 2019
Amendments to IAS 28 "Long-term interests in associates and joint ventures"	January 1, 2019
Annual Improvements to IFRS Standards 2015–2017 Cycle	January 1, 2019

Except for the following items, the Group believes that the adoption of the above IFRSs would not have any material impact on its consolidated financial statements. The extent and impact of signification changes are as follows:

(Continued)

(i) IFRS 16“Leases”

IFRS 16 replaces the existing leases guidance, including IAS 17 Leases, IFRIC 4 Determining whether an Arrangement contains a Lease, SIC-15 Operating Leases – Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease.

The Group applied IFRS 16 using the modified retrospective approach, under which the cumulative effect of initial application is recognized in retained earnings on January 1, 2019. The details of the changes in accounting policies are disclosed below,

1) Definition of a lease

Previously, the Group determined at contract inception whether an arrangement is or contains a lease under IFRIC 4. Under IFRS 16, the Group assesses whether a contract is or contains a lease based on the definition of a lease, as explained in Note 4(k).

On transition to IFRS 16, the Group elected to apply the practical expedient to grandfather the assessment of which transactions are leases. The Group applied IFRS 16 only to contracts that were previously identified as leases. Contracts that were not identified as leases under IAS 17 and IFRIC 4 were not reassessed for whether there is a lease. Therefore, the definition of a lease under IFRS 16 was applied only to contracts entered into or changed on or after January 1, 2019.

2) As a lessee

As a lessee, the Group previously classified leases as operating or finance leases based on its assessment of whether the lease transferred significantly all of the risks and rewards incidental to ownership of the underlying asset to the Group. Under IFRS 16, the Group recognizes right-of-use assets and lease liabilities for most leases – i.e. these leases are on-balance sheet.

The Group decided to apply recognition exemptions to short-term leases of staff dorm, leases classified as operating leases under IAS 17.

At transition, lease liabilities were measured at the present value of the remaining lease payments, discounted at the Group’s incremental borrowing rate as at January 1, 2019. Right-of-use assets are measured at either:

— their carrying amount as if IFRS 16 had been applied since the commencement date, discounted using the lessee’s incremental borrowing rate at the date of initial application – the Group applied this approach to its largest property leases; or

— an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments – the Group applied this approach to all other lease.

(Continued)

In addition, the Group used the following practical expedients when applying IFRS 16 to leases.

— Applied a single discount rate to a portfolio of leases with similar characteristics.

— Adjusted the right-of-use assets by the amount of IAS 37 onerous contract provision immediately before the date of initial application, as an alternative to an impairment review.

— Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term.

— Excluded initial direct costs from measuring the right-of-use asset at the date of initial application.

— Used hindsight when determining the lease term if the contract contains options to extend or terminate the lease.

3) Impacts on financial statements

On transition to IFRS 16, the Group recognized additional $98,068 thousands of right-of-use assets and $93,006 thousands of lease liabilities (deduct $5,062 thousands of prepayment). When measuring lease liabilities, the Group discounted lease payments using its incremental borrowing rate at January 1, 2019. The weighted-average rate applied is 5.27%.

The explanation of differences between operating lease commitments disclosed at the end of the annual reporting period immediately preceding the date of initial application, and lease liabilities recognized in the statement of financial position at the date of initial application disclosed as follows:

	January 1, 2019
Operating lease commitment at December 31, 2018 as disclosed in the Group's consolidated financial statements	$ 165,701
Recognition exemption for:	
short-term leases	(1,328)
Effect of exchange rate	2,468
	$ 166,841
Discounted using the incremental borrowing rate at January 1, 2019	$ 98,068
Prepaid rents	(5,062)
Lease liabilities recognized at January 1, 2019	**$ 93,006**

(ii) IFRIC 23 “Uncertainty over Income Tax Treatments”

In assessing whether and how an uncertain tax treatment affects the determination of taxable profit (tax loss), tax bases, unused tax losses, unused tax credits, as well as tax rates, an entity shall assume that a taxation authority will examine the amounts it has the right to examine and have a full knowledge on all related information when making those examinations.

If an entity concludes that it is probable that the taxation authority will accept an uncertain tax treatment, the entity shall determine the taxable profit (tax loss), tax bases, unused tax losses, unused tax credits, as well as tax rates consistently with the tax treatment used or planned to be used in its income tax filings. Otherwise, an entity shall reflect the effect of uncertainty for each uncertain tax treatment by using either the most likely amount or the expected value, depending on which method the entity expects to better predict the resolution of the uncertainty.

On transition, the Group estimated the application of the new standard will not affect the deferred tax liabilities and the retained earnings respectively.

(b) The impact of IFRS endorsed by FSC but not yet effective

The following new standards, interpretations and amendments have been endorsed by the FSC and are effective for annual periods beginning on or after January 1, 2020 in accordance with Rule No. 1080323028 issued by the FSC on July 29, 2019:

New, Revised or Amended Standards and Interpretations	Effective date per IASB
Amendments to IFRS 3 “Definition of a Business”	January 1, 2020
Amendments to IFRS 9, IAS39 and IFRS7 “Interest Rate Benchmark Reform”	January 1, 2020
Amendments to IAS 1 and IAS 8 “Definition of Material”	January 1, 2020

The Group assesses that the adoption of the abovementioned standards would not have any material impact on its consolidated financial statements.

(c) The impact of IFRS issued by IASB but not yet endorsed by the FSC

As of the date, the following IFRSs that have been issued by the International Accounting Standards Board (IASB), but have yet to be endorsed by the FSC:

New, Revised or Amended Standards and Interpretations	Effective date per IASB
Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture”	Effective date to be determined by IASB
IFRS 17 “Insurance Contracts”	January 1, 2021
Amendments to IAS 1 “Classification of Liabilities as Current or Non-current”	January 1, 2022

The Group is evaluating the impact of its initial adoption of the abovementioned standards or interpretations on its consolidated financial position and consolidated financial performance. The results thereof will be disclosed when the Group completes its evaluation.

MIN AIK PRECISION INDUSTRIAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(4) Summary of significant accounting policies:

The significant accounting policies presented in the consolidated financial statements are summarized as below. Except for those specifically indicated, the following accounting policies were applied consistently throughout the periods presented in the consolidated financial statements.

(a) Statement of compliance

These consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (hereinafter referred to as “the Regulations”) and the IFRSs, IASs, IFRIC Interpretations, and SIC Interpretations endorsed and issued into effect by the FSC.

(b) Basis of preparation

(i) Basis of measurement

Except for the following significant accounts, the consolidated financial statements have been prepared on a historical cost basis:

1) Financial instruments at fair value through profit or loss are measured at fair value;

2) The defined benefit assets are measured at fair value of the plan assets less the present value of the defined benefit obligation.

(ii) Functional and presentation currency

The functional currency of each Group entity is determined based on the primary economic environment in which the entity operates. The consolidated financial statements are presented in New Taiwan dollars, which is the Company’s functional currency. All financial information presented in New Taiwan dollars has been rounded to the nearest thousand.

(c) Basis of consolidation

(i) Principles of preparation of the consolidated financial statements

The consolidated financial statements comprise the Company and its subsidiaries. Subsidiaries are entities controlled by the Group. The Group ‘controls’ an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The financial statements of the subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases. Intragroup balances and transactions, and any unrealized income and expenses arising from intragroup transactions, are eliminated in preparing the consolidated financial statements. The Group attributes the profit or loss and each component of other comprehensive income to the owners of the parent and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

The Group prepares consolidated financial statements using uniform accounting policies for like transactions and other events in similar circumstances.

(Continued)

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received will be recognized directly in equity, and the Group will attribute it to the owners of the parent.

(ii) List of subsidiaries in the consolidated financial statements

			Percentage of Ownership (%)	
Name of investor	**Name of subsidiary**	**Main Activities and Location**	**December 31, 2019**	**December 31, 2018**
The Company	Esteem King	Holding Company	100 %	100 %
The Company	Evolution	Holding Company	100 %	100 %
Esteem King	MAPP	Design, Manufacture and Sale of tooling and medical injection molding	100 %	100 %
MAPP	AMOULD PLASTIC TECHNOLOGIES (SUZHOU) CO., LTD (AMO)	Design, Manufacture and Sale of automatic machines	100 %	100 %
Evolution	Dongguan Yi Hong Precision Industrial Co., Ltd. (YHP)	Discontinuing (Note)	- %	100 %

Note: YHP has been liquidation in December, 2019.

(d) Foreign currencies

(i) Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of Group entities at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period, monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated into the functional currencies using the exchange rate at the date that the fair value was determined. Non-monetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of the transaction.

Exchange differences are generally recognized in profit or loss, except for an investment in equity securities designated as at fair value through other comprehensive income, which are recognized in other comprehensive income.

(ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into the presentation currency at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into the presentation currency at the average exchange rate. Exchange differences are recognized in other comprehensive income.

(Continued)

When a foreign operation is disposed of such that control, significant influence, or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Group disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interests. When the Group disposes of only part of its investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

(e) Classification of current and non-current assets and liabilities

An asset is classified as current under one of the following criteria, and all other assets are classified as non-current.

(i) It is expected to be realized, or intended to be sold or consumed, in the normal operating cycle;

(ii) It is held primarily for the purpose of trading;

(iii) It is expected to be realized within twelve months after the reporting period; or

(iv) The asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current under one of the following criteria, and all other liabilities are classified as non-current.

(i) It is expected to be settled in the normal operating cycle;

(ii) It is held primarily for the purpose of trading;

(iii) It is due to be settled within twelve months after the reporting period; or

(iv) The Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by issuing equity instruments do not affect its classification.

(f) Cash and cash equivalents

Cash comprise cash on hand and demand deposits. Cash equivalents is short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and are held for the purpose of meeting short term cash commitments rather than for investment or other purposes should be recognized as cash equivalents.

(Continued)

(g) Financial instruments

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

(i) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

On initial recognition, a financial asset is classified as measured at: amortized cost and FVTPL. Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

1) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

· it is held within a business model whose objective is to hold assets to collect contractual cash flows; and

· its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

2) Fair value through profit or loss (FVTPL)

All financial assets not classified as amortized cost are measured at FVTPL, including derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

3) Impairment of financial assets

The Group recognizes loss allowances for expected credit losses (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, amortized costs, notes and trade receivables, other receivable, guarantee deposit paid and other financial assets), debt investments measured at FVOCI and contract assets.

The Group measures loss allowances at an amount equal to lifetime ECL, except for the following which are measured as 12-month ECL:

· debt securities that are determined to have low credit risk at the reporting date; and

· other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowance for trade receivables and contract assets are always measured at an amount equal to lifetime ECL

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Group's historical experience and informed credit assessment as well as forward-looking information.

Lifetime ECL are the ECL that result from all possible default events over the expected life of a financial instrument.

12-month ECL are the portion of ECL that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECL is the maximum contractual period over which the Group is exposed to credit risk

ECL are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive). ECL are discounted at the effective interest rate of the financial asset.

At each reporting date, the Group assesses whether financial assets carried at amortized cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit-impaired includes the following observable data:

· significant financial difficulty of the borrower or issuer;

· a breach of contract such as a default or being more than 120 days past due;

(Continued)

- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;

- it is probable that the borrower will enter bankruptcy or other financial reorganization; or

- the disappearance of an active market for a security because of financial difficulties.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. The Group individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

4) Derecognition of financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognized in its statement of balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

(ii) Financial liabilities and equity instruments

1) Classification of debt or equity

Debt and equity instruments issued by the Group are classified as financial liabilities or equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2) Equity instrument

An equity instrument is any contract that evidences residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognized as the amount of consideration received, less the direct cost of issuing.

3) Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

4) Derecognition of financial liabilities

The Group derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount of a financial liability extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

5) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount presented in the statement of balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

(h) Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories is based on the weighted average method and includes expenditure incurred in acquiring the inventories, production or conversion costs, and other costs incurred in bringing them to their present location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

(i) Investment in associates

Associates are those entities in which the Group has significant influence, but not control or joint control, over their financial and operating policies.

Investments in associates are accounted for using the equity method and are recognized initially at cost. The cost of the investment includes transaction costs. The carrying amount of the investment in associates includes goodwill arising from the acquisition less any accumulated impairment losses.

(Continued)

The consolidated financial statements include the Group’ s share of the profit or loss and other comprehensive income of those associates, after adjustments to align their accounting policies with those of the Group, from the date on which significant influence commences until the date on which significant influence ceases.

Gains and losses resulting from transactions between the Group and an associate are recognized only to the extent of unrelated Group’s interest in the associate.

When the Group’s share of losses of an associate equals or exceeds its interests in an associate, it discontinues recognizing its share of further losses. After the recognized interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

(j) Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

(ii) Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

(iii) Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment.

Land is not depreciated.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

1) Buildings: 50~56 years

2) Building facilities: 3~5 years

3) Machinery and equipment: 2~10 years

4) Office and other equipment：2~15 years

5) Leasehold improvement：2~10 years

MIN AIK PRECISION INDUSTRIAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Depreciation methods, useful lives, and residual values are reviewed at each reporting date and adjusted if appropriate.

(k) Lease

Applicable from January 1, 2019

(i) Identifying a lease

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

1) the contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified; and

2) the customer has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and

3) the customer has the right to direct the use of the asset throughout the period of use only if either:

- the customer has the right to direct how and for what purpose the asset is used throughout the period of use; or

- the relevant decisions about how and for what purpose the asset is used are predetermined and:

  - the customer has the right to operate the asset throughout the period of use, without the supplier having the right to change those operating instructions; or

  - the customer designed the asset in a way that predetermines how and for what purpose it will be used throughout the period of use.

If an arrangement contains lease and non-lease components, the Company allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. However, for the leases of land and buildings in which it is a lessee, the Group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

(ii) As a lessee

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

— fixed payments, including in-substance fixed payments;

— variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;

— amounts expected to be payable under a residual value guarantee; and

— payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

— there is a change in future lease payments arising from the change in an index or rate; or

— there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee; or

— there is change in the lease term resulting from a change of its assessment on whether it will exercise an option to purchase the underlying asset, or

— there is a change of its assessment on whether it will exercise a purchase, extension or termination option; or

— there is any lease modifications

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

(Continued)

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Group accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Group presents right-of-use assets that do not meet the definition of investment and lease liabilities as a separate line item respectively in the statement of financial position.

The Group has elected not to recognize right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Group recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Applicable before January 1, 2019

(i) Lessor

Lease income from an operating lease is recognized in income on a straight-line basis over the lease term. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset, and recognized as an expense over the lease term on the same basis as the lease income. Incentives granted to the lessee to enter into an operating lease are spread over the lease term on a straight-line basis so that the lease income received is reduced accordingly.

Contingent rents are recognized as income in the period when the lease adjustments are confirmed.

(ii) Lessee

Under the operating leases, all payments are recognized as a leases expense, and the leased assets are not recognized in the consolidated statement of financial position.

Payments made under operating leases (excluding insurance and maintenance expenses) are recognized in profit or loss on a straight-line basis over the term of the lease.

Contingency rent is recognized as expense in the period in which it is incurred.

(l) Impairment – non financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than inventories, deferred tax assets and the assets arising on employee benefits) to determine whether there is any indication of impairment. If any such indication exists, then the asset’ s recoverable amount is estimated.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount for an individual asset or a cash generating unit is the higher of its fair value less costs to sell and its value in use. If, and only if, the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset shall be reduced to its recoverable amount.

That reduction is an impairment loss. An impairment loss shall be recognized immediately in profit or loss.

An assessment is made at the end of each reporting period as to whether there is any indication that an impairment loss recognized in prior periods for an asset other than goodwill may no longer exist or may have decreased. If any such indication exists, the recoverable amount of that asset is estimated. An impairment loss recognized in prior periods for an asset is reversed if, and only if, there has been an improvement in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. In this case, the carrying amount of the asset is increased to its recoverable amount by reversing an impairment loss.

(m) Provisions

A provision is recognized if, as a result of a past event, the Group has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pretax rate that reflects the current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

(i) Warranties

A provision for warranties is recognized when the underlying products or services are sold, based on historical warranty data and a weighting of all possible outcomes against their associated probabilities.

(ii) Site restoration

In accordance with the leases agreement , the Group's has the obligation to restore the leased facilities and the office. The provision is measured by the discounted present value of restoration cost at the termination of agreement, and related expense are recognized during contract period.

(n) Revenue recognized

(i) Revenue from contracts with customers policy

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring goods or services to a customer. The Group recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Group's main types of revenue are explained below.

The Group manufactures and sells electronic, plastic components and automated machines. The Group recognizes revenue when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

(Continued)

The Group offers standard warranty with the automatic machines for months to one year to its clients. Therefore, the Group’s obligation to provide a refund for faulty automatic machines under the standard warranty terms is recognized as a provision of warranty.

(ii) Financing components

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

(o) Employee benefits

(i) Defined contribution plans

Obligations for contributions to defined contribution pension plans are expensed as the related service is provided.

(ii) Defined benefit plans

The Group’s net obligation in respect of defined benefit plans is calculated separately for each the plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income, and accumulated in retained earnings within equity. The Group determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Group recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

(iii) Short term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(Continued)

(p) Share based payment

The grant-date fair value of equity-settled share-based payment arrangements granted to employees is generally recognized as an expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognized as an expense is adjusted to reflect the number of awards for which the related service and non-market performance conditions are expected to be met, such that the amount ultimately recognized is based on the number of awards that meet the related service and non-market performance conditions at the vesting date.

The fair value of the amount payable to employees in respect of share appreciation rights, which are settled in cash, is recognized as an expense with a corresponding increase in liabilities, over the period during which the employees become unconditionally entitled to payment. The liability is remeasured at each reporting date and at settlement date based on the fair value of the share appreciation rights. Any changes in the liability are recognized in profit or loss.

Grant date of a share-based payment award is the date which the group and employees reach a consensus in the subscription price and number of shares.

(q) Income taxes

Income taxes comprise current taxes and deferred taxes. Except for expenses related to business combinations or recognized directly in equity or other comprehensive income, all current and deferred taxes shall be recognized in profit or loss.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred taxes arise due to the temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases. Deferred taxes shall not be recognized for the following exceptions:

(i) Temporary differences on the initial recognition of assets and liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profits (losses) at the time of the transaction;

(ii) Temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

(iii) taxable temporary differences arising on the initial recognition of goodwill.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reserve, using tax rates enacted or substantively enacted at the reporting date, and reflect uncertainty related to income taxes, if any.

Deferred tax assets and liabilities are offset if the following criteria are met:

(i) the Group has a legally enforceable right to set off current tax assets against current tax liabilities; and

(ii) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:

1) the same taxable entity; or

2) different taxable entities which intend to settle current tax assets and liabilities on a net basis, or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Deferred tax assets are recognized for the carry forward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realized; such reductions are reversed when the probability of future taxable profits improves.

(r) Earnings per Share

The Group discloses the basic and diluted earnings per share attributable to ordinary shareholders of the Company. Basic earnings per share is calculated as the profit attributable to the ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding. Diluted earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding after adjustment for the effects of all potential dilutive ordinary shares. Such as employee bonuses not yet resolved by the shareholders.

(s) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Group). Operating results of the operating segment are regularly reviewed by the Group's chief operating decision maker to make decisions about resources to be allocated to the segment and to assess its performance. Each operating segment consists of standalone financial information.

(5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty:

The preparation of the consolidated financial statements in conformity with the Regulations and the IFRSs endorsed by the FSC requires management to make judgments, estimates, and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income, and expenses. Actual results may differ from these estimates.

The management continues to monitor the accounting estimates and assumptions. The management recognizes any changes in accounting estimates during the period and the impact of those changes in accounting estimates in the following period.

(Continued)

There are no critical judgments made in applying accounting policies that have any significant effects on the amounts recognized in the consolidated financial statements.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year is as follows:

Valuation of Inventory

Inventories are stated at the lower of cost or net realizable value, and the Group estimates the net realizable value of inventories for obsolescence and unmarketable items at the end of reporting period and then writes down the cost of inventories to net realizable value. The net realizable value of the inventory is mainly determined based on assumptions of future demand within a specific time horizon. Due to the rapid technological changes, there may be significant changes in the net realizable value of inventories. Please refer Note 6(d) for valuation of Inventory.

The Group's accounting policies include measuring financial and nonfinancial assets and liabilities at fair value through profit or loss. The Group's financial division conducts independent verification on fair value by using data sources that are independent, reliable, and representative of exercise prices. This financial division also periodically adjusts valuation models, conducts back testing, renews input data for valuation models, and makes all other necessary fair value adjustments to assure the rationality of fair value.

The Group strives to use market observable inputs when measuring assets and liabilities. Different levels of the fair value hierarchy to be used in determining the fair value of financial instruments are as follows:

- Level 1: quoted prices (unadjusted) in active markets for identifiable assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the assets or liability that are not based on observable market data.

For any transfer within the fair value hierarchy, the impact of the transfer is recognized on the reporting date. Please refer to Note 6(s) for assumptions used in measuring fair value.

(6) Explanation of significant accounts:

(a) Cash and cash equivalents

	December 31, 2019	December 31, 2018
Cash, petty cash, check and demand deposits	$ 643,652	881,343
Time deposits	207,053	119,306
Cash and cash equivalents in the consolidated statement of cash flows	**$ 850,705**	**1,000,649**

Please refer to note 6(s) for the exchange rate risk, interest rate risk, and sensitivity analysis of the financial assets and liabilities of the Group.

(b) Non-current financial assets at amortized cost

	December 31, 2019	December 31, 2018
Restricted bank deposits	$ **91,019**	-

On December 5, 2019, the Group applied to IRS for the application of " The Management , Utilization and Taxation of Repatriated Offshore Funds Act" .The application had been approved and the dividend had been remitted back to the parent subsequently. According to the Act, the funds need to be deposited in a special-purpose account for five years and 5% of the funds can be used without restriction, 25% can be used on financial investment, and 70%, at least, can be used for the project investment plan approved by the Ministry of Economic Affairs. Otherwise, the funds can only be redeemed within 3 consecutive year on average after the five years maturity. The Group has applied to the Ministry of Economic Affairs for substantial investments that were expected to be used for plant expansion and capital expenditure.

Please refer to note 6(s) for the exchange rate risk, and sensitivity analysis of the financial assets and liabilities of the Group.

(c) Notes and accounts receivable (include related parties)

	December 31, 2019	December 31, 2018
Notes receivable from operating activities	$ 264	-
Accounts receivable	246,991	424,847
Accounts receivable-related parties	153,766	143,965
Less: Loss allowance	(2,552)	(4,504)
	$ **398,469**	**564,308**

The Group applies the simplified approach to provide for its expected credit losses, i.e. the use of lifetime expected loss provision for all receivables. To measure the expected credit losses, notes and accounts receivables have been grouped based on shared credit risk characteristics and the days past due, as well as incorporated forward looking information, including macroeconomic and relevant industry information. The loss allowance provision for notes and accounts receivables was determined as follows:

	December 31, 2019		
Notes and Accounts Receivable -non related parties	**Gross carrying amount**	**Weighted-average loss rate**	**Loss allowance provision**
Current	$ 201,345	1%	2,054
Past due(days):			
0 to 60	44,927	1%	449
61 to 120	983	5%	49
121 to 180	-	20%	-
181 to 360	-	50%	-
More than 360	-	100%	-
	$ **247,255**		**2,552**

MIN AIK PRECISION INDUSTRIAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The movement in the allowance for notes and accounts receivable was as follows:

	2019	2018
Balance on January 1, 2019 and 2018	$ 4,504	2,771
Impairment losses recognized (Gain on reversal of impairment loss)	(1,921)	1,642
Foreign exchange gains/(losses)	(31)	91
Balance on December 31, 2019 and 2018	**$ 2,552**	**4,504**

As of December 31, 2019 and 2018, the Group did not provide any notes and accounts receivable as collateral for its loans.

Please refer to note(s) for other credit risk.

(d) Inventory

	December 31, 2019	December 31, 2018
Raw materials and consumables	$ 50,217	46,907
Work in progress	62,551	55,149
Finished goods	156,987	173,725
	$ 269,755	**275,781**

The details of the cost of sales was as follows:

	2019	2018
Inventory that has been sold	$ 1,302,831	1,532,965
Write-down of inventories (Reversal of write-downs)	26,328	73,167
Abnormal amounts of production costs of inventories	52,303	28,888
Product warranty costs	15,470	75,959
Inventory profit or losses and others	2,110	2,450
	$ 1,399,042	**1,713,429**

As of December 31, 2019 and 2018, the Group did not provide any inventories as collateral for its loans.

(e) Investments accounted for using equity method

The Group's financial information for investments accounted for using the equity method that are individually insignificant was as follows:

Name of Affiliates	Nature of Relationship with the Group	Main operating location/ Registered Country of the Company	Proportion of shareholding and voting rights December 31, 2019	Proportion of shareholding and voting rights December 31, 2018
MATC Technology(M) Sdn. Bhd.	Production of hardware components	Malaysia	20.00 %	20.00 %

The following consolidated financial information of significant affiliates has been adjusted according to individually prepared IFRS financial statements of these affiliates:

	December 31, 2019	December 31, 2018
Carrying amount of individually insignificant associates' equity	$ 68,521	107,991

	2019	2018
Attributable to the Group:		
Loss from continuing operations	$ (38,488)	(10,551)
Other comprehensive income	(982)	1,242
Comprehensive income	$ (39,470)	(9,309)

As of December 31, 2019 and 2018, the Group did not provide any investments accounted for using the equity method as collateral for its loans.

(f) Property, plant and equipment

The cost, depreciation, and impairment of the property, plant and equipment of the Group for the years ended December 31, 2019 and 2018, were as follows:

	Land	Buildings and construction	Machinery and equipment	Office and other facilities	Construction in progress and testing equipment	Total
Cost or deemed cost:						
Balance on January 1, 2019	$ 596,362	296,342	811,001	484,757	9,886	2,198,348

The Group entered into a contract with Taitien Asset Development Co., Ltd. (Taitien) on January 26, 2018, to purchase the land and buildings (No.2 Guorui Rd., Guanyin Dist., Taoyuan City), which were originally rented for its office and plant with $680,000 thousands. The Group referred to the transaction information of nearby real estate market and the real estate appraisal report, and then negotiated with Taitien to decide the purchase price. The ownership of the asset has been transferred and registered on March 28, 2018. The Group recognized the land and buildings as property, plant and equipment, and borrow the long-term borrowings in compliance with its operating and financial plan. Please refer to note 6(i) for details.

In 2019 and 2018, the Group concluded that some of the machinery and equipment are insufficient capacity utilization, and the future economic benefits may not be recovered after the Group' s assessment, leading to a recoverable amount wrote down to $0. Therefore, the Group recognized impairment loss amounting to $1,185 thousand and $12,444 thousand, which report as non-operating expense.

As of December 31, 2019 and 2018, for the Group pledged property, plant and equipment as collateral for long-term borrowings, please refer to Note 8.

(g) Right-of-use assets

The Group leases many assets including land, buildings and structures, and other equipment. Information about leases for which the Group as a lessee is presented below:

		Land	Buildings and structures	Office and other facilities	Total
Cost:					
Balance at January 1, 2019	$	63,441	29,732	4,895	98,068
Additions		-	16	708	724
Disposal		-	-	(1,295)	(1,295)
Exchange on movements exchange rates		(1,311)	(1,798)	(107)	(3,216)
Balance at December 31, 2019	$	**62,130**	**27,950**	**4,201**	**94,281**
Accumulated depreciation and impairment losses:					
Balance at January 1, 2019	$	-	-	-	-
Depreciation for the year		1,861	8,932	2,834	13,627
Disposal		-	-	(908)	(908)
Exchange on movements exchange rates		(32)	(324)	(38)	(394)
Balance at December 31, 2019	$	**1,829**	**8,608**	**1,888**	**12,325**
Carrying amount:					
Balance at December 31, 2019	$	**60,301**	**19,342**	**2,313**	**81,956**

The Group leases land, buildings and structures, office and other facilities under an operating lease for the year ended December 31, 2018, please refer to Note 6(k).

(h) Short-term borrowings

The short-term borrowings were summarized as follows:

		December 31, 2019	December 31, 2018
Unsecured bank loans	$	**100,000**	**184,600**
Unused short-term credit lines	$	**389,700**	**516,177**
Range of interest rates		**1%**	**1%~5.655%**

(i) Long-term borrowings

The long-term borrowings details were as follows:

	December 31, 2019	December 31, 2018
Secured bank loans	$ 50,000	50,000
Unsecured bank loans	446,000	510,000
Less: expired in 1 year	(64,000)	(98,000)
Total	**$ 432,000**	**462,000**
Unused long-term credit lines	**$ 114,000**	**50,000**
Range of interest rates	**1.18%~1.518%**	**1.18%~1.612%**

According to The Group' s operating and financial plan, the Group entered into a long-term borrowings agreement with Cathay United Bank on April 16, 2018, and drawdown of loan to purchase the property, plant and equipment simultaneously. Please refer to note 6(f) for details.

For the collateral for long-term borrowings, please refer to note 8.

(j) Lease liabilities

	December 31, 2019
Current	**$ 9,514**
Non-current	**$ 69,423**

The amounts recognized in profit or loss were as follows:

	2019
Interest expenses on lease liabilities	**$ 4,122**
Expenses relating to short-term leases	**$ 7,087**

The amounts recognized in the statement of cash flows for the Group was as follows:

	2019
Total cash outflow for leases	**$ 23,216**

(i) Real estate and buildings leases

As of December 31, 2019, the Group leases land and buildings for its offices and factories. The leases of offices typically run for a period of 2 to 5 years, and about 50 years for land. Some leases contain extension options exercisable up to the same period as original contracts before the end of the contract period.

MIN AIK PRECISION INDUSTRIAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(ii) Other leases

The Group leases staff dormitories, transportation equipment, and office facilities with lease terms of 2 to 5 years. Some lease contracts stipulate that upon the expiration of the lease period, which can extend to the same period as original contracts.

The Group also leases parts of the leases of staff dormitories and warehouse are with contract terms of one year. These leases are short-term. The Group has elected not to recognize right-of-use assets and lease liabilities for these leases.

(k) Operating lease

Non-cancellable operating lease rentals payable was as follows:

	December 31, 2018
Less than one year	$ 18,175
Between one and five years	38,614
Over five years	108,912
	$ **165,701**

(i) The Group leases a number of lands, factory facilities and offices under operating lease with an
option to renew the lease after that date. During 2018, an amount of $25,507 thousand was recognized as an expense in profit or loss in respect of operating leases.

(ii) The Group has signed the leasing contract, due to the non-transfer of the ownership after expiration, and the Group has not assumed the remaining value at risk, thus evaluating it as operating lease.

(l) Employee benefit

(i) Defined benefit plans

Reconciliation of defined benefit obligation at present value and plan asset at fair value are as follows:

	December 31, 2019	December 31, 2018
Present value of the defined benefit obligations	$ (25,495)	(26,118)
Fair value of plan assets	48,231	45,687
Net defined benefit assets	$ **22,736**	**19,569**

The Group makes defined benefit plan contributions to the pension fund account with Bank of Taiwan that provides pensions for employees upon retirement. Plans (covered by the Labor Standards Law) entitle a retired employee to receive retirement benefits based on years of service and average monthly salary for the six months prior to retirement.

MIN AIK PRECISION INDUSTRIAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

1) Composition of plan assets

The Group allocates pension funds in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund, and such funds are managed by the Bureau of Labor Funds, Ministry of Labor. With regard to the utilization of the funds, minimum earnings shall be no less than the earnings attainable from two-year time deposits with interest rates offered by local banks.

The Group' s Bank of Taiwan labor pension reserve account balance amounted to $48,231 thousand as of December 31, 2019. For information on the utilization of the labor pension fund assets, including the asset allocation and yield of the fund, please refer to the website of the Bureau of Labor Funds, Ministry of Labor.

2) Movements in present value of the defined benefit obligations

The movement in present value of the defined benefit obligations for the Group were as follows

	2019	2018
Defined benefit obligations at January 1	$ 26,118	25,339
Current service costs and interest cost (income)	(681)	408
Remeasurements loss (gain):		
－Return on plan assets excluding interest income	(1,050)	(223)
Actuarial loss (gain) arising from:		
－demographic assumptions	229	99
－financial assumptions	1,144	495
Benefits planned to be paid	(265)	-
Defined benefit obligations at December 31	**$ 25,495**	**26,118**

3) Movements of defined benefit plan assets

The movements in the present value of the defined benefit plan assets for the Group were as follows:

	2019	2018
Fair value of plan assets at January 1	$ 45,687	43,052
Interest income	519	545
Remeasurements loss (gain):		
－Return on plan assets excluding interest income	1,540	1,184
Benefits paid	750	906
Benefits planned has been paid	(265)	-
Fair value of plan assets at December 31	**$ 48,231**	**45,687**

(Continued)

4) Expenses recognized in profit or loss

The expenses recognized in profit or loss for the Group were as follows:

	2019	2018
Current service costs	$ (975)	92
Net interest of net liabilities (assets) for defined benefit obligations	(225)	(228)
	$ (1,200)	**(136)**
Operating cost	**$ (1,200)**	**(136)**

5) Actuarial assumptions

The principal actuarial assumptions at the reporting date were as follows:

	2019.12.31	2018.12.31
Discount rate	0.800 %	1.125 %
Future salary increase rate	3.125 %	3.125 %

The expected allocation payment to be made by the Group to the defined benefit plans for the one-year period after the reporting date is $750 thousands.

The weighted average lifetime of the defined benefits plans is 11 years.

6) Sensitivity analysis

If the actuarial assumptions had changed, the impact on the present value of the defined benefit obligation shall be as follows:

	Influences of defined benefit obligations	
Original actuarial assumptions	**Increased 0.5%**	**Decreased 0.5%**
December 31, 2019		
Discount rate 0.800%	877	(927)
Future salary increasing rate 3.125%	(876)	839
December 31, 2018		
Discount rate 1.125%	983	(1,042)
Future salary increasing rate 3.125%	(988)	942

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown above. The method used in the sensitivity analysis is consistent with the calculation of pension liabilities in the balance sheets.

There is no change in the method and assumptions used in the preparation of sensitivity analysis for 2019 and 2018.

(Continued)

(ii) Defined contribution plans

The Company allocates 6% of each employee's monthly wages to the labor pension personal account at the Bureau of Labor Insurance in accordance with the provisions of the Labor Pension Act. Under these defined contribution plans, the Company allocates a fixed amount to the Bureau of Labor Insurance without additional legal or constructive obligation.

The pension costs incurred from the contributions to the Bureau of the Labor Insurance amounted to $39,417 thousands and $51,921 thousands for the years ended December 31, 2019 and 2018, respectively.

(m) Income taxes

(i) The components of income tax in the years 2019 and 2018 were as follows:

	2019	2018
Current tax	$ 31,343	8,102
Deferred tax	(43,836)	14,456
Income tax expense (income)	**$ (12,493)**	**22,558**

(ii) The amount of income tax recognized directly in equity or other comprehensive income for 2019 and 2018 were both 0.

(iii) Reconciliation of income tax and profit before tax for 2019 and 2018 is as follows :

	2019	2018
Profit and loss excluding income tax	$ 1,667	(34,209)
Income tax using the Company's domestic tax rate	(2,086)	(2,627)
Adjustment in tax rate	-	6,038
Tax incentive	(11,892)	-
Change in provision in prior periods	(1,148)	(11,841)
Change in unrecognized temporary differences and others	2,633	30,988
	$ (12,493)	**22,558**

(iv) Deferred tax assets and liabilities

1) Unrecognized deferred tax liabilities

The consolidated entity is able to control the timing of the reversal of the temporary differences associated with investments in subsidiaries as of December 31, 2019 and 2018. Also, management considers it probable that the temporary differences will not reverse in the foreseeable future. Hence, such temporary differences are not recognized under deferred tax liabilities. In 2019, the unrecognized deferred tax liabilities amount was $26,090 thousand (2018: $13,595).

2) Unrecognized deferred tax assets

	December 31, 2019	December 31, 2018
Tax effect of deductible temporary Differences	$ 22,883	16,592
The carry forward of unused tax losses	20,301	25,399
	$ 43,184	**41,991**

The R.O.C. Income Tax Act allows net losses, as assessed by the tax authorities, to offset taxable income over a period of five to ten years for local tax reporting purposes. Deferred tax assets have not been recognized in respect of these items because it is not probable that future taxable profit will be available against which the Group can utilize the benefits therefrom.

As of December 31, 2019, the information of the Group's tax losses are as follows, and the Group's unused tax losses for which no deferred tax assets were 117,827 thousand.

Company name	Year o loss	Unused tax loss	Expiry date
The Company	2017 (Declaration)	$ 11,205	2027
The Company	2018 (Filed)	68,134	2028
The Company	2019 (Estimation)	19,210	2029
AMO	2018 (Declaration)	46,307	2028
AMO	2019 (Estimation)	18,986	2029

3) Recognized deferred tax assets and liabilities

Changes in the amount of deferred tax assets and liabilities for 2019 and 2018 were as follows:

	Unrealized exchange gain	Income from equity investments under the equity method	Fiscal and tax difference from Depreciation	Total
Deferred Tax Liabilities:				
Balance at January 1, 2019	$ 1,439	50,601	17,352	69,392
Recognized in profit or loss	(1,098)	(32,316)	(602)	(34,016)
Balance at December 31, 2019	**$ 341**	**18,285**	**16,750**	**35,376**
Balance at January 1, 2018	$ -	41,652	16,961	58,613
Recognized in profit or loss	1,439	8,949	391	10,779
Balance at December 31, 2018	**$ 1,439**	**50,601**	**17,352**	**69,392**

(Continued)

MIN AIK PRECISION INDUSTRIAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

		Unrealized exchange loss	Allowance to reduce inventory	Unused tax losses carry forwards	Others	Total
Deferred Tax Assets:

(v) Examination and Approval

The Company's tax returns for the years through 2017 were examined and approved by the Taipei National Tax Administration.

(n) Capital and other equity

For the years ended December 31, 2019 and 2018, the authorized capital of the Company consisted of both $1,000,000 thousand shares, with par value of $10 per share, and its outstanding capital consisted of both $770,000 thousand common shares of stock.

(i) Capital surplus

The balances of capital surplus as of December 31, 2019 and 2018, were as follows:

		December 31, 2019	December 31, 2018
Issued share premium	$	654,099	681,049
Adjustment of re-segmentation		42,439	42,439
Employee share options		7,847	7,847
	$	**704,385**	**731,335**

According to the R.O.C. Company Act, capital surplus can only be used to offset a deficit, and only the realized capital surplus can be used to increase the common stock or be distributed as cash dividends. The aforementioned realized capital surplus includes capital surplus resulting from premium on issuance of capital stock and earnings from donated assets received. According to the Regulations Governing the Offering and Issuance of Securities by Securities Issuers, capital increases by transferring capital surplus in excess of par value should not exceed 10% of the total common stock outstanding.

In according to the company shareholder's meeting held on June 13, 2019 and June 15,2018, approved to distribute the cash dividend of $26,950 thousands, representing 0.35 New Taiwan dollars per share by using the issued share premium.

(Continued)

MIN AIK PRECISION INDUSTRIAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(ii) Retained earnings

The Company's article of incorporation stipulates that Company's net earnings should first be used to offset the prior years' deficits, if any, before paying any income taxes. Of the remaining balance, 10% is to be appropriated as legal reserve, and then any remaining profit together with any undistributed retained earnings shall be distributed according to the distribution plan proposed by the Board of Directors and submitted to the stockholders' meeting for approval.

In consideration of the shareholder' s long-term benefit and stable operation, the Company adopts a stable dividends policy. Therefore, cash dividends should not be less than 10% of aggregate dividends

1) Legal reserve

When a company incurs no loss, it may, pursuant to a resolution by a shareholders' meeting, distribute its legal reserve by issuing new shares or by distributing cash, and only the portion of legal reserve which exceeds 25% of capital may be distributed.

2) Special reserve

In accordance with Ruling No. 1010012865 issued by the FSC on April 6, 2012, a portion of current-period earnings and undistributed prior-period earnings shall be reclassified as special earnings reserve during earnings distribution. The amount to be reclassified should equal the current-period total net reduction of other shareholders' equity. Similarly, a portion of undistributed prior-period earnings shall be reclassified as special earnings reserve (and does not qualify for earnings distribution) to account for cumulative changes to other shareholders' equity pertaining to prior periods. Amounts of subsequent reversals pertaining to the net reduction of other shareholders' equity shall qualify for additional distributions.

3) Earnings distribution

The Company has accumulated deficits, so no earnings distribution in 2018. Earnings distribution for 2017 was decided by the resolution adopted, at the general meeting of shareholders held on Jane 15, 2018. The relevant dividend distributions to shareholders were as follows:

	2018		2017	
	Amount per share	**Total amount**	**Amount per share**	**Total amount**
Dividends distributed to ordinary shareholders				
Cash	$ -	-	0.15	**11,550**

Earnings distributions for 2017 that decided by the general meeting of shareholders were not different from the resolution of board meeting. Related information would be available at the Market Observation Post System website.

(Continued)

MIN AIK PRECISION INDUSTRIAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(o) Earnings per share

(i) Basic earnings per share

The calculation of basic earnings per share at December 31, 2019 and 2018, was based on the profit(loss) attributable to ordinary shareholders of the Company and the weighted average number of ordinary shares outstanding, calculated as follows:

		2019	2018
Basic earnings (loss) per share			
Profit(loss) attributable to ordinary shareholders of the company	$	14,160	(56,767)
Weighted-average number of ordinary shares (thousand shares)		77,000	77,000
Basic earnings(loss) per share	$	0.18	(0.74)

(ii) Diluted earnings per share

The Group does not have any dilutive ordinary shares in 2019 and 2018. Thus only basic earnings(loss) per share is disclosed.

(p) Revenue from contracts with customers

(i) Details of revenue

For details on accounts receivable and allowance for impairment, please refer to note 6(c).

(q) Employee compensation and directors' and supervisors' remuneration

In accordance with the articles of incorporation the Company should contribute between 3%~9% of the profit as employee compensation and less than 3% as directors' and supervisors' remuneration when there is profit for the year. However, if the Company has accumulated deficits, the profit should be reserved to offset the deficit. The amount of remuneration of each director and supervisor and of compensation for employees entitled to receive the abovementioned employee compensation is approved by the Board of Directors. The recipients of shares and cash may include the employees of the Company's affiliated companies who meet certain conditions.

The Company did not estimate employee remuneration and directors’ and supervisors’ remuneration due to loss before income tax for the year ended December 31, 2019 and 2018. The estimated amounts mentioned above are calculated based on the net profit before tax, excluding the remuneration to employees, directors and supervisors of each period, multiplied by the percentage of remuneration to employees, directors and supervisors as specified in the Company's articles. These remunerations were expensed under operating costs or operating expenses during. Related information would be available at the Market Observation Post System website.

(r) Non-operating income and expenses

(i) Other income

The details of other income were as follows:

	2019	2018
Interest income	$ 4,337	3,091
Rent income	3,052	3,839
Other income	35,308	38,505
	$ 42,697	**45,435**

MIN AIK PRECISION INDUSTRIAL CO., LTD. AND SUBSIDIARIES

(ii) Other gains and losses

The details of other gains and losses were as follows:

		2019	2018
Foreign exchange gains (losses)	$	(22,745)	35,681
Gains (Losses) on disposals of property, plant and equipment		175	(1,407)
Loss on non-financial assets impairment		(1,185)	(12,444)
Others		(12,468)	(28,795)
	$	**(36,223)**	**(6,965)**

(s) Financial instruments

(i) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, which arises from the Group' s accounts receivable.

1) Credit risk exposure

As at reporting date, the carrying amount of financial assets represents the maximum amount exposed to credit risk. For the year end in 2019 and 2018, the maximum amount was $1,344,771 thousand and $1,571,324 thousand, respectively. Implicit credit risk of the Group is inherent in its cash and accounts receivable. The cash is deposited in different financial institutions. The Company manages the credit risk exposure with each of these financial institutions and believes that cash do not have a significant credit risk concentration.

2) Concentration of credit risk

The concentration of credit risk is mainly affected by creditors' rating and the client's industry. As of, December 31, 2019 and 2018, 75% and 63%, respectively, of the Group's accounts receivable were concentrated on top five sales clients.

3) For the details of the accounts receivable aging and loss allowance, please refer to note 6 (c).

(ii) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group manages sufficient cash and cash equivalents so as to cope with its operations and mitigate the effects of fluctuations in cash flows. The Group's management supervises the banking facilities and ensures compliance with the terms of loan agreements.

The following table shows the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements.

	Carrying amount	Contractual cash flows	Less than 1 years	1-2 years	2-5 years	Over 5 years
December 31, 2019						
Non derivative financial liabilities						
Bank loans	$ 596,000	621,310	172,435	119,273	201,875	127,727
Accounts payable (including related parties)	210,096	210,096	210,096	-	-	-
Lease liabilities	78,937	149,433	13,668	12,650	12,328	110,787
Other financial liabilities	143,698	143,698	143,698	-	-	-
	$ 1,028,731	**1,124,537**	**539,897**	**131,923**	**214,203**	**238,514**
December 31, 2018						
Non derivative financial liabilities						
Bank loans	$ 744,600	782,015	293,750	70,861	206,335	211,069
Accounts payable (including related parties)	224,852	224,852	224,852	-	-	-
Other financial liabilities	196,935	196,935	196,935	-	-	-
	$ 1,166,387	**1,203,802**	**715,537**	**70,861**	**206,335**	**211,069**

The Group does not expect the cash flows included in the maturity analysis to occur significantly earlier or at significantly different amounts.

(iii) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, and equity prices, will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

1) Exposure to foreign currency risk

The Group's significant exposure to foreign currency risk was as follows:

	December 31, 2019			December 31, 2018		
	Foreign currency	Exchange rate	TWD	Foreign currency	Exchange rate	TWD
Financial assets						
Monetary items						
USD	$ 24,983	29.98	748,981	33,172	30.715	1,018,890
Financial liabilities						
Monetary items						
USD	829	29.98	24,850	974	30.715	29,932

2) Sensitivity analysis

The Group's exposure to foreign currency risk arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents, trade receivables, and trade payables that are denominated in foreign currency.

A weakening or strengthening of 1% of the NTD against the Foreign currency as of 31 December, 2019 and 2018 would have decreased or increased the net profit (loss) before tax by $7,241 thousand and $9,890 thousand, respectively. This analysis is based on foreign currency exchange rate variances that the Group considered to be reasonably possible at the reporting date. The analysis assumes that all other variables remain constant and ignores any impact of forecasted sales and purchases. The analysis is performed on the same basis for 2018.

3) Foreign exchange gain and loss on monetary items

Since the Group has many kinds of functional currency, the information on foreign exchange gain (loss) on monetary items is disclosed by total amount. For years 2019 and 2018, foreign exchange gain (loss) (including realized and unrealized portions) amounted to $(22,745) thousand and $35,681 thousand, respectively.

4) Interest rate analysis

Please refer to the notes on liquidity risk management and interest rate exposure of the Group's financial liabilities.

The following sensitivity analysis is based on the exposure to the interest rate risk of derivative and non-derivative financial instruments on the reporting date. Regarding assets with variable interest rates, the analysis is based on the assumption that the amount of assets outstanding at the reporting date was outstanding throughout the year. The rate of change is expressed as the interest rate increases or decreases a quarter-point when reporting to management internally, which also represents the Group management's assessment of the reasonably possible interest rate change.

If the interest rate had increased or decreased by a quarter-point, the Group's net income before tax would have increased or decreased by $596 thousands and $802 thousands for the year ended 2019 and 2018 with all other variable factors remaining constant. This is mainly due to the Group's financial liabilities in variable-rate bills.

The Group's fixed-interest-rate financial assets and liabilities are measured at amortized cost. The changes in market rate do not affect the Group's profit or loss on the reporting date. Therefore, the Group does not disclose the sensitivity analysis of the changes in fair value.

(iv) Fair value of financial instruments

The carrying amount and fair value of the Group' s financial assets and liabilities, including the information on fair value hierarchy were as follows; however, except as described in the following paragraphs, for financial instruments not measured at fair value whose carrying amount is reasonably close to the fair value, disclosure of fair value information is not required:

	December 31, 2019				
		Fair Value			
	Book Value	**Level 1**	**Level 2**	**Level 3**	**Total**
Financial assets measured at amortized cost					
Cash and cash equivalents	$ 850,705				
Accounts receivable	244,703

Long term and short term borrowings	$ 744,600				
Accounts payable (including related parties)	224,852				
Other financial liabilities	196,935				
Subtotal	$ **1,166,387**				

1) Valuation techniques for financial instruments measured at fair value

A financial instrument is regarded as being quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency and those prices represent actual and regularly occurring market transactions on an arm's-length basis. Whether transactions are taking place 'regularly' is a matter of judgment and depends on the facts and circumstances of the market for the instrument.

If quoted price of a financial instrument can be obtained in time and often from exchanges, brokers, underwriters, industrial union, pricing institute, or authorities and such price can reflect those actual trading and frequently happen in the market, then the financial instrument is considered to have quoted price in active market. If a financial instrument does not accord with the definition aforementioned, then it is considered to be without quoted price in active market. In general, market with low trading volume or high bid-ask spreads is an indication of non-active market.

The Group's valuation techniques and assumptions used for financial instruments measured at fair value are as follows:

- Measurements of fair value of financial instruments with an active market, such as corporate stock, beneficiary certificate etc., its fair value depends on the market quotation.

- Measurements of fair value of financial instruments without an active market are based on a valuation technique or quoted price from a competitor. Fair value measured by a valuation technique can be extrapolated from similar financial instruments, the discounted cash flow method, or other valuation technique including a model using observable market data at the reporting date.

2) There was no transfer between each fair value levels in 2019 and 2018.

(t) Financial risk management

(i) Structure of risk management

The Group’s risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group’s activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group Audit Committee oversees how management monitors compliance with the Group’s risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Group Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

(ii) The Group have exposures to the following risks from its financial instruments:

1) Credit risk

2) Liquidity risk

3) Market risk

The following likewise discusses the Group’s objectives, policies and processes for measuring and managing the above mentioned risks. For more disclosures about the quantitative effects of these risks exposures, please refer to note 6 (s).

(u) Capital management

The Group’s capital management policy is to ensure that it has sufficient and necessary financial resources to fund its working capital needs, capital asset purchases and debt service requirements associated with its existing operations over the next 12 months. And also consider the debt ratio to maintain investor, creditor and market confidence and to sustain future development of the business. The Group’s capital management strategy is consistent with the prior year, and the debt ratio is 41% and 45% at December 31, 2019 and 2018.

(v) Investing and financing activities not affecting current cash flow

The Group's investing and financing activities which did not affect the current cash flow in the years ended December 31, 2019 and 2018, were as follows:

(i) Obtain right-of assets by lease, please refer to notes 6(g).

(ii) Reconciliation of liabilities arising from financing activities were as follows:

	January 1, 2019	Cash flows	Foreign exchange movement	December 31, 2019
Long-term borrowings	$ 560,000	(64,000)	-	496,000
Short-term borrowings	184,600	(85,864)	1,264	100,000
Lease liabilities	93,006	(12,007)	(2,062)	78,937
Total liabilities from financing activities	**$ 837,606**	**(161,871)**	**(798)**	**674,937**

	January 1, 2018	Cash flows	Foreign exchange movement	December 31, 2018
Long-term borrowings	$ 50,000	510,000	-	560,000
Short-term borrowings	209,818	(24,086)	(1,132)	184,600
Total liabilities from financing activities	**$ 259,818**	**485,914**	**(1,132)**	**744,600**

(7) Related-party transactions:

(a) Names and relationship with related parties

Name of related party	Relationship with the Group
Min Aik Technology Co., Ltd (MAT)	The entity with significant influence over the Group
Min Aik Technology (M) Sdn. Bhd. (MAM)	Other related party (MAT's subsidiary)
MATC Technology (M) Sdn. Bhd. (MATC)	〃
Min Aik Technology (SuZhou) Co., Ltd. (MAY)	〃
key management personnel	The Group's major management personnel

MIN AIK PRECISION INDUSTRIAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(b) Significant transactions with related parties

(i) Sales

The amounts of significant sales and uncollected receivables by the Group to related parties were as follows:

	Sales		Related parties receivables	
	2019	**2018**	**December 31, 2019**	**December 31, 2018**
The entity with significant influence over the Group:				
MAT	$ 143,450	156,565	69,989	47,347
Other related parties:				
MAM	338,339	396,303	83,777	96,618
Others	24	14	-	-
	$ 481,813	**552,882**	**153,766**	**143,965**

The payment term of the Group’s sales to related parties is O/A 75~120 day and which term may be changed depend on the Group’ s operation. The payment terms to non-related parties was normally about two to three months. The selling price to related parties was referred to the market price and negotiated by both parties.

(ii) Purchases

	Purchases		Related parties receivables

(iii) Significant transactions with the investees in Mainland China:

The significant inter-company transactions with the subsidiary in Mainland China, which were eliminated in the preparation of consolidated financial statements, are disclosed in " Information on significant transactions"

(14) Segment information:

(a) General information

For the purpose of resource allocation and performance measurement, the Group classified operating segment based on its business types, and supervised and managed the divisions' performance by the Group's decision-maker. The Group has three reportable segments: the Company, MAPP and AMO. The Company engages mainly in the development, design and manufacture of precise components. MAPP engages mainly in the development and manufacture of medical plastic injection and molding. AMO engages mainly in development, manufacture and selling of automatic machines. Since the divisions offer different products and use different sales strategy, the Group managed them separately. Please refer to Note 6(p) for geographic information of operating segment.

The Group measures segment's profit or loss based on their operating income and use them as the basis for performance evaluation. The accounting policies of operating segments are identical to Note 4 "summary of significant accounting policies". The Group's operating segment information and reconciliation are as follows:

	2019					
	The Company	**MAPP**	**Amould Suzhou**	**Other segment**	**Reconciliation and elimination**	**Total**
Revenue						
Revenue from external customers	$ 903,555	627,327	266,409	-	-	1,797,291
Intersegment revenues	-	-	19,015	-	(19,015)	-
Total revenue	**$ 903,555**	**627,327**	**285,424**	**-**	**(19,015)**	**1,797,291**
Reportable segment profit or loss	**$ (14,598)**	**134,431**	**(73,140)**	**(472)**	**1,559**	**47,780**
