Independent Auditors' Report

To the Board of Directors of Min Aik Precision Industrial Co., Ltd. :

Opinion

We have audited the financial statements of Min Aik Precision Industrial Co., Ltd. ("the Company"), which comprise the balance sheet as of December 31, 2023 and 2022, the statement of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the financial statements, including a summary of material accounting policies.

In our opinion, the accompanying parent company only financial statements present fairly, in all material respects, the parent company only financial position of the Company as of December 31, 2023 and 2022, and its parent company only financial performance and its parent company only cash flows for the year ended December 31, 2023 and 2022 in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the parent company only financial statements of the current period. These matters were addressed in the context of our audit of the parent company only financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. The key audit matters that, in our professional judgement, should be communicated are as follow:

Investments accounted for using equity method

Please refer to Notes 4(h) "Investment in subsidiaries" of the notes to financial statement for the accounting policies on investment in associates.

Description of key audit matter:

The subsidiaries that accounted for using equity method, revenue recognition and inventory valuation are material to the parent company only financial statements. The abovementioned valuation may have significant impact to the Company's operating results. Therefore, the revenue recognition and inventory valuation are considered to be the key audit matters.

How the matter was addressed in our audit:

In relation to the key audit matter above, our principal audit procedures on revenue recognition included the testing of internal control system over automatic equipment revenue; inspecting the contracts entered into with the customers; sending confirmation requests to debtors selected from the sales customers. We also assessed the adequacy of the Group's disclosures of its revenue recognition policy and other related disclosures.

Our principal audit procedures of inventory valuation included understanding the subsidiaries' s policies of inventory valuation to assess the appropriateness of its inventory valuation; testing, on a sampling basis, the subsidiary's inventory aging report to verify its correctness; understanding and testing, on a sampling basis, the selling price that the management used, or reviewing the subsequent sales of the inventories to assess the appropriateness of the net realizable value.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including the Audit Committee) are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company only financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

6. Obtain sufficient and appropriate audit evidence regarding the financial information of the investment in other entities accounted for using the equity method to express an opinion on this parent company only financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent company only financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Yu, Sheng-Ho and Cheng, An-Chih.

MIN AIK PRECISION INDUSTRIAL CO., LTD.

Notes to the Financial Statements

For the years ended December 31, 2023 and 2022

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

(1) Company history

Min Aik Precision Industrial Co., Ltd. (the "Company") was incorporated on January 18, 2001, as a company limited by shares and registered under the Ministry of Economic Affairs, ROC. The Company's shares were listed on the Taiwan Stock Exchange (TWSE) on January 6, 2016. The address of its registered office is No. 2, Guorui Rd., Guanyin Dist., Taoyuan City. The Company mainly engages in the processing and manufacturing of electroplating of aluminum and copper products, precision stamping components and electroless nickel plating.

(2) Approval date and procedures of the financial statements:

These parent company only financial statements were authorized for issuance by the Board of Directors on March 7, 2024.

(3) New standards, amendments and interpretations adopted:

(a) The impact of the International Financial Reporting Standards ("IFRSs") endorsed by the Financial Supervisory Commission, R.O.C. which have already been adopted.

The Company has initially adopted the following new amendments, which do not have a significant impact on its financial statements, from January 1, 2023:

- Amendments to IAS 1 "Disclosure of Accounting Policies"
- Amendments to IAS 8 "Definition of Accounting Estimates"
- Amendments to IAS 12 "Deferred Tax related to Assets and Liabilities arising from a Single Transaction"

The Company has initially adopted the new amendment, which do not have a significant impact on its financial statements, from May 23, 2023:

- Amendments to IAS 12 "International Tax Reform—Pillar Two Model Rules"

(b) The impact of IFRS issued by the FSC but not yet effective

The Company assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2024, would not have a significant impact on its financial statements:

- Amendments to IAS 1 "Classification of Liabilities as Current or Non-current"
- Amendments to IAS 1 "Non-current Liabilities with Covenants"
- Amendments to IAS 7 and IFRS 7 "Supplier Finance Arrangements"
- Amendments to IFRS 16 "Lease Liability in a Sale and Leaseback"

(Continued)

(c) The impact of IFRS issued by IASB but not yet endorsed by the FSC

The Company does not expect the following new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its financial statements:

- Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture"
- IFRS 17 " Insurance Contracts" and amendments to IFRS 17 " Insurance Contracts"
- Amendments to IFRS 17 "Initial Application of IFRS 17 and IFRS 9 – Comparative Information"
- Amendments to IAS21 "Lack of Exchangeability"

(4) Summary of material accounting policies:

The material accounting policies presented in the parent company only financial statements are summarized below. Except for those specifically indicated, the following accounting policies were applied consistently throughout the periods presented in the parent company only financial statements.

(a) Statement of compliance

The parent company only financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

(b) Basis of preparation

(i) Basis of measurement

Except for the following significant accounts, the parent company only financial statements have been prepared on a historical cost basis:

1) Financial instruments at fair value through profit or loss are measured at fair value;

2) The defined benefit assets are measured at the fair value of the plan assets less the present value of the defined benefit obligation.

(ii) Functional and presentation currency

The functional currency of the company is determined based on the primary economic environment in which the entity operates. The parent company only financial statements are presented in New Taiwan dollars, which is the Company's functional currency. All financial information presented in New Taiwan dollars has been rounded to the nearest thousand.

MIN AIK PRECISION INDUSTRIAL CO., LTD.
Notes to the Financial Statements

(c) Foreign currencies

(i) Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of the Company at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period, monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated into the functional currencies using the exchange rate at the date that the fair value was determined. Non-monetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of the transaction.

(ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into New Taiwan Dollars at exchange rates at the reporting date. The income and expenses of foreign operations are translated into New Taiwan Dollars at the average exchange rate. Exchange differences are recognized in other comprehensive income.

When a foreign operation is disposed of such that control, significant influence, or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Company disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interests. When the Company disposes of only part of its investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

(d) Classification of current and non-current assets and liabilities

An asset is classified as current under one of the following criteria, and all other assets are classified as non-current.

(i) It is expected to be realized, or intended to be sold or consumed, in the normal operating cycle;

(ii) It is held primarily for the purpose of trading;

(iii) It is expected to be realized within twelve months after the reporting period; or

(iv) The asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current under one of the following criteria, and all other liabilities are classified as non-current.

(i) It is expected to be settled in the normal operating cycle;

(ii) It is held primarily for the purpose of trading;

(iii) It is due to be settled within twelve months after the reporting period; or

(iv) It does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by issuing equity instruments do not affect its classification.

(e) Cash and cash equivalents

Cash comprises cash, and cash in bank. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and are held for the purpose of meeting short term cash commitments rather than for investment or other purposes should be recognized as cash equivalents.

(f) Financial instruments

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

(i) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

On initial recognition, a financial asset is classified as measured at: amortized cost and FVTPL. Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

MIN AIK PRECISION INDUSTRIAL CO., LTD.
Notes to the Financial Statements

1) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

· It is held within a business model whose objective is to hold assets to collect contractual cash flows; and

· Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

2) Impairment of financial assets

The Company recognizes loss allowances for expected credit losses (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, amortized costs, notes and trade receivables, other receivable, guarantee deposit paid and other financial assets), and contract assets.

The Company measures loss allowances at an amount equal to lifetime ECL, except for the following which are measured as 12-month ECL:

· debt securities that are determined to have low credit risk at the reporting date; and

· other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowance for trade receivables and contract assets are always measured at an amount equal to lifetime ECL.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Company’ s historical experience and informed credit assessment as well as forward-looking information.

Lifetime ECL are the ECL that result from all possible default events over the expected life of a financial instrument.

12-month ECL are the portion of ECL that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

(Continued)

MIN AIK PRECISION INDUSTRIAL CO., LTD.
Notes to the Financial Statements

The maximum period considered when estimating ECL is the maximum contractual period over which the Company is exposed to credit risk.

ECL are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive). ECL are discounted at the effective interest rate of the financial asset.

At each reporting date, the Company assesses whether financial assets carried at amortized cost have occurred. Evidence that a financial assets is credit-impaired includes the following observable data:

· significant financial difficulty of the borrower or issuer;

· a breach of contract such as a default or being more than 120 days past due;

· the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;

· it is probable that the borrower will enter bankruptcy or other financial reorganization; or

· the disappearance of an active market for a security because of financial difficulties.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. The Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company’s procedures for recovery of amounts due.

3) Derecognition of financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company enters into transactions whereby it transfers assets recognized in its statement of balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

(Continued)

(ii) Financial liabilities and equity instruments

1) Classification of debt or equity

Debt and equity instruments issued by the Company are classified as financial liabilities or equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2) Equity instrument

An equity instrument is any contract that evidences residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognized as the amount of consideration received, less the direct cost of issuing.

3) Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

4) Derecognition of financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount of a financial liability extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

5) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount presented in the statement of balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

(Continued)

(g) Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories is based on the weighted average method and includes expenditure incurred in acquiring the inventories, production or conversion costs, and other costs incurred in bringing them to their present location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

(h) Investment in subsidiaries

When preparing the parent company only financial statements, investment in subsidiaries which are controlled by the Company is accounted for using the equity method. Under the equity method, the net income, other comprehensive income and equity in the parent company only financial statements are the same as those attributable to the owners of parent in the consolidated financial statements.

Changes in parent's ownership interest in a subsidiary that do not result in the loss of control are recognized under equity.

(i) Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

(ii) Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

(iii) Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment.

Land is not depreciated.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

1) Buildings: 50 years

2) Building facilities: 3~5 years

3) Machinery and equipment: 2~20 years

4) Office and other equipment：2~20 years

5) Leasehold improvement：2~9 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(j) Lease

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contracts conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

— fixed payments, including in-substance fixed payments;

— variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;

— amounts expected to be payable under a residual value guarantee; and

— payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

— there is a change in future lease payments arising from the change in an index or rate; or

— there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee; or

— there is a change in the lease term resulting from a change of its assessment on whether it will exercise an option to purchase the underlying asset; or

— there is a change of its assessment on whether it will exercise an extension or termination option; or

— there is any lease modification

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Company accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Company presents right-of-use assets that do not meet the definition of investment and lease liabilities as a separate line item respectively in the statement of financial position.

The Company has elected not to recognize right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

(k) Impairment of non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than inventories, deferred tax assets and the assets arising on employee benefits) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognized in profit or loss.

(Continued)

MIN AIK PRECISION INDUSTRIAL CO., LTD.
Notes to the Financial Statements

An assessment is made at the end of each reporting period as to whether there is any indication that an impairment loss recognized in prior periods may no longer exist or may have decreased. If any such indication exists, the recoverable amount of that asset is estimated. An impairment loss recognized in prior periods for an asset is reversed if, and only if, there has been an improvement in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. In this case, the carrying amount of the asset is increased to its recoverable amount by reversing an impairment loss.

(l) Provisions

A provision is recognized if, as a result of a past event, the Company has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

(m) Revenue recognized

(i) Revenue from contracts with customers

Revenue is measured based on the consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer. The Company recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Company's main types of revenue are explained below.

The Company manufactures and sells electronic components to computer and automobile manufacturers. The Company recognizes revenue when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Company has objective evidence that all criteria for acceptance have been satisfied.

(ii) Financing components

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

(Continued)

(n) Employee benefits

(i) Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided.

(ii) Defined benefit plans

The Company's net obligation in respect of defined benefit plans is calculated separately for each the plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income, and accumulated in retained earnings within equity. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

(iii) Short term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(Continued)

(o) Share-based payment

The grant-date fair value of equity-settled share-based payment arrangements granted to employees is generally recognized as an expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognized as an expense is adjusted to reflect the number of awards for which the related service and non-market performance conditions are expected to be met, such that the amount ultimately recognized is based on the number of awards that meet the related service and non-market performance conditions at the vesting date.

The fair value of the amount payable to employees in respect of share appreciation rights, which are settled in cash, is recognized as an expense with a corresponding increase in liabilities, over the period during which the employees become unconditionally entitled to payment. The liability is remeasured at each reporting date and at settlement date based on the fair value of the share appreciation rights. Any changes in the liability are recognized in profit or loss.

Grant date of a share-based payment award is the date which the Company and employees reach a consensus in the subscription price and number of shares.

(p) Income taxes

Income taxes comprise current taxes and deferred taxes. Except for expenses related to business combinations or recognized directly in equity or other comprehensive income, all current and deferred taxes shall be recognized in profit or loss.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred taxes arise due to the temporary differences between the carrying amounts of assets and liabilities at the reporting date and their respective tax bases. Deferred taxes shall not be recognized for the following exceptions:

(i) Temporary differences on the initial recognition of assets and liabilities in a transaction that is not a business combination and at the time of the transaction affects neither accounting nor taxable profits (losses), and does not give rise to equal taxable and deductible temporary differences;

(ii) Temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

(iii) taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for the carry forward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realized; such reductions are reversed when the probability of future taxable profits increases.

(Continued)

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reserve, using tax rates enacted or substantively enacted at the reporting date, and reflect uncertainty related to income taxes.

Deferred tax assets and liabilities are offset if the following criteria are met:

(i) the Company has a legally enforceable right to set off current tax assets against current tax liabilities; and

(ii) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:

1) the same taxable entity; or

2) different taxable entities which intend to settle current tax assets and liabilities on a net basis, or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

(q) Earnings per share

The Company discloses the basic and diluted earnings per share attributable to ordinary shareholders of the Company. Basic earnings per share is calculated as the profit attributable to the ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding. Diluted earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding after adjustment for the effects of all potential dilutive ordinary shares (e.g. employee bonuses not yet resolved by the shareholders.).

(r) Operating segments

The Company discloses the operating segment information in the consolidated financial statements. Therefore, the Company does not disclose the operating segment information in the parent company only financial statements.

(s) Government grants

The Company recognizes an unconditional government in profit or loss as other income when the grant becomes receivable. Grants that compensate the Company for expenses or losses incurred are recognized in profit or loss on a systematic basis in the periods in which the expenses or losses are recognized.

For government grants related to depreciated assets, the Company recognized as the deduction of the assets if there is reasonable assurance that the grants will be received and the Company will comply with the conditions associated with the grant; and through the decrease in depreciation expenses, the grants are then recognized in profit or loss during the useful lives of the depreciated assets.

(Continued)

(5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty

The preparation of the parent company only financial statements in conformity with the Regulations requires management to make judgments, estimates, and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income, and expenses. Actual results may differ from these estimates.

The management continues to monitor the accounting estimates and assumptions. The management recognizes any changes in accounting estimates during the period and the impact of those changes in accounting estimates in the following period.

There is a critical judgment made in applying accounting policies that have significant effects on the amounts recognized in the consolidated financial statements is as follows:

Judgment regarding control of subsidiaries

The Company owns 20% shares of the related party MATC Technology(M) Sdn. Bhd., and the rest of 80% shares are owned by another single shareholder. Therefore, it is determined that the Group has no significant influence on MATC Technology(M) Sdn. Bhd.

The information on accounting assumptions and estimation uncertainties did not have a significant risk of resulting in a material adjustment to the carrying amount of assets and liabilities within the next financial year on the Company.

The Company’s accounting policies include measuring financial and non-financial assets and liabilities at fair value through profit or loss. The Company’s financial division conducts independent verification on fair value by using data sources that are independent, reliable, and representative of exercise prices. This financial division also periodically adjusts valuation models, conducts back testing, renews input data for valuation models, and makes all other necessary fair value adjustments to assure the rationality of fair value.

The Company strives to use market observable inputs when measuring assets and liabilities. Different levels of the fair value hierarchy to be used in determining the fair value of financial instruments are as follows:

- Level 1: quoted prices (unadjusted) in active markets for identifiable assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the assets or liability that are not based on observable market data.

For any transfer within the fair value hierarchy, the impact of the transfer is recognized on the reporting date. Please refer to Note 6(q) for assumptions used in measuring fair value.

MIN AIK PRECISION INDUSTRIAL CO., LTD.
Notes to the Financial Statements

(6) Explanation of significant accounts:

(a) Cash and cash equivalents

	December 31, 2023	December 31, 2022
Cash, petty cash, check and demand deposits	$ 256,413	131,728
Time deposits	10,133	-
Cash and cash equivalents	**$ 266,546**	**131,728**

Please refer to note 6(q) for the exchange rate risk, interest rate risk, and sensitivity analysis of the financial assets and liabilities of the Company.

(b) Accounts receivable (include related parties)

	December 31, 2023	December 31, 2022
Accounts receivable	$ 171,108	227,397
Accounts receivable from related parties	96,235	69,070
Less: Loss allowance	(1,736)	(2,291)
	$ 265,607	**294,176**

The Company applies the simplified approach to provide for its expected credit losses, i.e. the use of lifetime expected loss provision for all receivables. To measure the expected credit losses, accounts receivables have been grouped based on shared credit risk characteristics and the days past due, as well as incorporated forward looking information, including macroeconomic and relevant industry information. The loss allowance provision for accounts receivables was determined as follows:

	December 31, 2023		
Accounts receivable -non-related parties	**Gross carrying amount**	**Weighted-average loss rate**	**Loss allowance provision**
Current	$ 154,630	1%	1,568
Past due (days):			
0 to 60	16,398	1%	164
61 to 120	80	5%	4
	$ 171,108		**1,736**

	December 31, 2023		
Accounts receivable -related parties	**Gross carrying amount**	**Weighted-average loss rate**	**Loss allowance provision**
Current	**$ 96,235**	0%	**-**

MIN AIK PRECISION INDUSTRIAL CO., LTD.
Notes to the Financial Statements

Accounts receivable -non-related parties	December 31, 2022 Gross carrying amount	Weighted-average loss rate	Loss allowance provision
Current	$ 196,327	1%	1,980
Past due (days):			
0 to 60	31,070	1%	311
	$ **227,397**		**2,291**

Accounts receivable -related parties	December 31, 2022 Gross carrying amount	Weighted-average loss rate	Loss allowance provision
Current	$ **69,070**	**0%**	**-**

The movement in the allowance for accounts receivable was as follows:

	2023	2022
Balance on January 1, 2023 and 2022	$ 2,291	1,954
Impairment losses (reversed) recognized	(555)	337
Balance on December 31, 2023 and 2022	$ **1,736**	**2,291**

As of December 31, 2023 and 2022, the Company did not provide any accounts receivable as collateral for its loans.

Please refer to note 6(q) for other credit risk.

(c) Inventories

	December 31, 2023	December 31, 2022
Raw materials and consumables	$ 62,391	46,647
Work in progress	38,461	43,200
Finished goods	144,836	205,971
	$ **245,688**	**295,818**

MIN AIK PRECISION INDUSTRIAL CO., LTD.
Notes to the Financial Statements

The detail of the cost of sales were as follows:

	2023	2022
Inventory that has been sold	$ 791,021	929,243
Abnormal amounts of production cost of inventories	99,464	56,781
Loss on scrap and inventory valuation	13,311	28,947
Inventory gain or losses and others	2,476	2,917
	$ 906,272	**1,017,888**

As of December 31, 2023 and 2022, the Company did not provide any inventories as collateral for its loans.

(d) Investments accounted for using equity method

A summary of the Company's financial information for investments accounted for using the equity method at the reporting date is as follows:

	December 31, 2023	December 31, 2022
Esteem King Limited (Esteem King)	$ 921,466	1,038,922
Evolution Holdings Limited (Evolution)	10,149	10,098
	$ 931,615	**1,049,020**

	2023	2022
Attributable to the Company:		
Profit from continuing operations	$ 97,308	134,886
Other comprehensive income (loss)	4,116	71,183
Comprehensive income (loss)	**$ 101,424**	**206,069**

The Company recognized investment income based on subsidiaries' financial statements with same fiscal period that was audited by the Certified Public Accountant.

As of December 31, 2023 and 2022, the Company did not provide any investments accounted for using the equity method as collateral for its loans.

(Continued)

MIN AIK PRECISION INDUSTRIAL CO., LTD.
Notes to the Financial Statements

(h) Long-term borrowings

The details were as follows:

	December 31, 2023	December 31, 2022
Unsecured bank loans	$ 100,000	100,000
Secured bank loans	190,000	254,000
Less: current portion	(164,000)	(64,000)
Total	$ **126,000**	**290,000**
Range of interest rates	**1.82%~2.11%**	**1.53%~1.72%**

For the collateral for long-term borrowings, please refer to note 8.

(i) Lease Liabilities

The details were as follows:

	December 31, 2023	December 31, 2022
Current	$ **24**	**59**
Non-current	$ **-**	**24**

The amounts recognized in profit or loss were as follows:

	2023	2022
Interest on lease liabilities	$ **1**	**2**
Expenses relating to short-term leases	$ **1,099**	**1,177**

For the maturity analysis, please refer to note 6(q).

The amounts recognized in the statement of cash flows was as follows:

	2023	2022
Total cash outflow for leases	$ **1,159**	**1,293**

The Company leases offices equipment, with lease terms of 5 years. Some leases contain extension options exercisable up to the same period as original contract before the end of the contract period.

The Company also leases staff dormitories and machine equipment with contract terms within one year. These leases are short-term items.The Company has elected not to recognize right-of-use assets and lease liabilities for these leases.

MIN AIK PRECISION INDUSTRIAL CO., LTD.
Notes to the Financial Statements

(j) Employee benefit

(i) Defined benefit plans

Reconciliation of defined benefit obligation at present value and plan asset at fair value are as follows:

	December 31, 2023	December 31, 2022
Present value of the defined benefit obligations	$ (28,225)	(22,221)
Fair value of plan assets	56,162	54,495
Net defined benefit assets	**$ 27,937**	**32,274**

The Company makes defined benefit plan contributions to the pension fund account with Bank of Taiwan that provides pensions for employees upon retirement. Plans (covered by the Labor Standards Law) entitle a retired employee to receive retirement benefits based on years of service and average monthly salary for the six months prior to retirement.

1) Composition of plan assets

The Company allocates pension funds in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund, and such funds are managed by the Bureau of Labor Funds, Ministry of Labor. With regard to the utilization of the funds, minimum earnings shall be no less than the earnings attainable from two-year time deposits with interest rates offered by local banks.

The Company's Bank of Taiwan labor pension reserve account balance amounted to $56,162 thousand as of December 31, 2023. For information on the utilization of the labor pension fund assets, including the asset allocation and yield of the fund, please refer to the website of the Bureau of Labor Funds, Ministry of Labor.

2) Movements in present value of the defined benefit obligations

The movement in present value of the defined benefit obligations for the Company were as follows:

	2023	2022
Defined benefit obligations at January 1	$ 22,221	26,028
Current service costs and interest cost	311	250
Remeasurements loss (gain):		
－Return on plan assets excluding interest income	6,923	(386)
－financial assumptions	210	(1,453)
Benefits paid	(1,440)	(2,218)
Defined benefit obligations at December 31	**$ 28,225**	**22,221**

(Continued)

MIN AIK PRECISION INDUSTRIAL CO., LTD.
Notes to the Financial Statements

3) Movements of defined benefit plan assets

The movements in the present value of the defined benefit plan assets for the Company were as follows:

		2023	2022
Fair value of plan assets at January 1	$	54,495	51,813
Interest income		767	390
Remeasurements loss (gain):			
—Return on plan assets excluding interest income		403	3,983
Contributions paid by the employer		497	527
Benefits paid		-	(2,218)
Fair value of plan assets at December 31	**$**	**56,162**	**54,495**

4) Expenses recognized in profit or loss

The expenses recognized in profit or loss for the Company were as follows:

		2023	2022
Current service costs	$	-	55
Net interest of net assets for defined benefit obligations and plan assets		(456)	(195)
	$	**(456)**	**(140)**
Operating expense	**$**	**(456)**	**(140)**

5) Actuarial assumptions

The principal actuarial assumptions at the reporting date were as follows:

	December 31, 2023	December 31, 2022
Discount rate	1.300 %	1.400 %
Future salary increase rate	2.875 %	2.875 %

The expected allocation payment to be made by the Company to the defined benefit plans for the one-year period after the reporting date is $497 thousand.

The weighted average lifetime of the defined benefits plans is 7 years.

6) Sensitivity analysis

If the actuarial assumptions had changed, the impact on the present value of the defined benefit obligation shall be as follows:

	Influences of defined benefit plan assets	
Original actuarial assumptions	**Increased 0.5%**	**Decreased 0.5%**
December 31, 2023		
Discount rate 1.300%	530	(552)
Future salary increasing rate 2.875%	(528)	512
December 31, 2022		
Discount rate 1.400%	561	(588)
Future salary increasing rate 2.875%	(563)	543

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown above. The method used in the sensitivity analysis is consistent with the calculation of pension liabilities in the balance sheets.

There is no change in the method and assumptions used in the preparation of sensitivity analysis for 2023 and 2022.

(ii) Defined contribution plans

The Company allocates 6% of each employee’s monthly wages to the labor pension personal account at the Bureau of Labor Insurance in accordance with the provisions of the Labor Pension Act. Under these defined contribution plans, the Company allocates a fixed amount to the Bureau of Labor Insurance without additional legal or constructive obligation.

The pension costs incurred from the contributions to the Bureau of Labor Insurance amounted to $11,047 thousands and $12,906 thousands for the years ended December 31, 2023 and 2022, respectively.

(k) Income taxes

(i) The components of income tax in the years 2023 and 2022 were as follows:

	2023	**2022**
Current tax	$ 67,612	4,869
Deferred tax	(43,695)	36,579
Income tax expense	**$ 23,917**	**41,448**

(ii) The amount of income tax recognized directly in equity or other comprehensive income for 2023 and 2022 were both 0.

MIN AIK PRECISION INDUSTRIAL CO., LTD.
Notes to the Financial Statements

(iii) Reconciliation of income tax and profit before tax for 2023 and 2022 is as follows:

	2023	2022
Profit before income tax	$ 106,982	203,276
Income tax using the Company's domestic tax rate	21,396	40,655
Change in provision in prior periods	5,198	793
Change in unrecognized temporary differences and others	(2,677)	-
	$ 23,917	**41,448**

(iv) Deferred tax assets and liabilities

1) Unrecognized deferred tax liabilities

The Company's foreign subsidiaries have retained earnings, because of the demand of capital expenditures and working capital. The Company expects that some of these retained earnings will not be returned back to the Company in the foreseeable future under the consideration of Company's integral development and investment plan. Hence, the temporary differences are not recognized under deferred tax liabilities. As of December 31, 2023 and 2022, the unrecognized deferred tax liabilities each amounted to $26,090 thousand for both periods.

2) Recognized deferred tax assets and liabilities

Changes in the amount of deferred tax assets and liabilities for 2023 and 2022 were as follows:

	Unrealized exchange gain	Gain on foreign investments under the equity method	Total
Deferred Tax Liabilities:			
Balance at January 1, 2023	$ 88	65,825	65,913
Recognized in profit or loss	(88)	(43,047)	(43,135)
Balance at December 31, 2023	**$ -**	**22,778**	**22,778**
Balance at January 1, 2022	$ -	38,832	38,832
Recognized in profit or loss	88	26,993	27,081
Balance at December 31, 2022	**$ 88**	**65,825**	**65,913**

MIN AIK PRECISION INDUSTRIAL CO., LTD.
Notes to the Financial Statements

		Unrealized exchange loss	Allowance to reduce inventory to market	Unused tax losses carry forwards	Others	Total
Deferred Tax Assets:						
Balance at January 1, 2023	$	-	(9,441)	-	(4,098)	(13,539)
Recognized in profit or loss		(1,630)	818	-	252	(560)
Balance at December 31, 2023	**$**	**(1,630)**	**(8,623)**	**-**	**(3,846)**	**(14,099)**
Balance at January 1, 2022	$	(335)	(4,443)	(12,067)	(6,192)	(23,037)
Recognized in profit or loss		335	(4,998)	12,067	2,094	9,498
Balance at December 31, 2022	**$**	**-**	**(9,441)**	**-**	**(4,098)**	**(13,539)**

(v) Examination and Approval

The Company's tax returns for the years through 2021 were examined and approved by the Taipei National Tax Administration.

(l) Capital and other equity

As of December 31, 2023 and 2022, the total value of authorized ordinary shares both were amounted to $1,000,000 thousand with par value of $10 per share. As of that date, ordinary shares both were issued amounted to $770,000 thousand.

(i) Capital surplus

The balances of capital surplus as of December 31, 2023 and 2022, were as follows:

		December 31, 2023	December 31, 2022
Issued share premium	$	592,499	592,499
Adjustment of re-segmentation		42,439	42,439
Employee share options		7,847	7,847
	$	**642,785**	**642,785**

According to the R.O.C. Company Act, capital surplus can only be used to offset a deficit, and only the realized capital surplus can be used to increase the common stock or be distributed as cash dividends. The aforementioned realized capital surplus includes capital surplus resulting from premium on issuance of capital stock and earnings from donated assets received. According to the Regulations Governing the Offering and Issuance of Securities by Securities Issuers, capital increases by transferring capital surplus in excess of par value should not exceed 10% of the total common stock outstanding.

The general meeting of shareholders that held on May 27, 2022 , decided to distribute capital surplus resulting from share premium as cash dividends amounted to $11,550 thousand with $0.15 per share.

(Continued)

(ii) Retained earnings

The Company's Articles of Incorporation requires that after-tax earnings shall first be offset against any deficit, and 10% of the balance shall be set aside as legal reserve. The appropriation for legal reserve is discontinued when the balance of the legal reserve equals the total authorized capital. Aside from the aforesaid, the Company may, under its Articles of Incorporation or as required by the government, appropriate or reverse for special reserve. The remaining balance of the earnings, if any, may be appropriated according to a resolution of a shareholder's meeting.

In consideration of the shareholder's long-term benefit and stable operation, the Company adopts a stable dividends policy. Therefore, cash dividends should not be less than 30% of the aggregate dividends.

1) Legal reserve

When a company incurs no loss, it may, pursuant to a resolution by a shareholders' meeting, distribute its legal reserve by issuing new shares or by distributing cash, and only the portion of legal reserve which exceeds 25% of capital may be distributed.

2) Special reserve

In accordance with Ruling No. 1010012865 issued by the FSC on April 6, 2012, a portion of current-period earnings and undistributed prior-period earnings shall be reclassified as special earnings reserve during earnings distribution. The amount to be reclassified should equal the current-period total net reduction of other shareholders' equity. Similarly, a portion of undistributed prior-period earnings shall be reclassified as special earnings reserve (and does not qualify for earnings distribution) to account for cumulative changes to other shareholders' equity pertaining to prior periods. Amounts of subsequent reversals pertaining to the net reduction of other shareholders' equity shall qualify for additional distributions.

3) Earnings distribution

Earnings distribution for 2022 and 2021 were decided via the general meeting of shareholders held on June 21, 2023 and May 27, 2022. The relevant dividend distributions to shareholders were as follows.

	2022		2021	
	Amount per share	**Total amount**	**Amount per share**	**Total amount**
Dividends distributed to ordinary shareholders:				
Cash	$ 1.50	**115,500**	0.55	**42,350**

Earnings distributions for 2022 and 2021 that decided by the general meeting of shareholders were not different from the resolution of board meeting. Related information would be available at the Market Observation Post System website.

MIN AIK PRECISION INDUSTRIAL CO., LTD.
Notes to the Financial Statements

(m) Earnings per share

(i) Basic earnings per share

The calculation of basic earnings per share at December 31, 2023 and 2022 were based on the profit attributable to ordinary shareholders of the Company and the weighted average number of ordinary shares outstanding, calculated as follows:

	2023	2022
Basic earnings per share		
Profit attributable to ordinary shareholders of the Company	$ 83,065	161,828
Weighted-average number of ordinary shares (thousand shares)	77,000	77,000
Basic earnings per share (dollar)	$ 1.08	2.10

(ii) Diluted earnings per share

The calculation of diluted earnings per share as of December 31, 2023 and 2022 were based on the profit attributable to ordinary shareholders of the Company and the weighted average number of ordinary shares outstanding after adjustment for the effects of all dilutive potential ordinary shares, calculated as follows:

	2023	2022
Diluted earnings per share:		
Profit attributable to ordinary shareholders of the Company	$ 83,065	161,828
Weighted-average number of ordinary shares (diluted) (thousand shares)	77,382	77,589
Diluted earnings per share (dollar)	$ 1.07	2.09

Weighted-average number of ordinary shares (diluted) (thousand shares):

	2023	2022
Weighted-average number of ordinary shares (basic) (thousand shares)	77,000	77,000
Effect of dilutive potential ordinary shares:		
Effect of employee share bonus	382	589
Weighted average number of ordinary shares (diluted) (thousand shares)	77,382	77,589

MIN AIK PRECISION INDUSTRIAL CO., LTD.
Notes to the Financial Statements

(n) Revenue from contracts with customers

(i) Details of revenue

		2023	2022
Primary geographical markets			
Malaysia	$	497,367	462,672
Taiwan		223,979	321,620
Thailand		137,243	181,065

Others		58,765	40,263
	$	**1,045,974**	**1,203,566**

(ii) Contract balances

		December 31, 2023	December 31, 2022	January 1, 2022
Accounts receivable	$	267,343	296,467	354,318
Less: allowance for impairment		(1,736)	(2,291)	(1,954)
Total	**$**	**265,607**	**294,176**	**352,364**

For details on accounts receivable and allowance for impairment, please refer to note 6(b).

(o) Employee compensation and directors' remuneration

In accordance with the Articles of Incorporation the Company should contribute 3%~9% of the profit as employee compensation and less than 3% as directors' remuneration when there is profit for the year. However, if the Company has accumulated deficits, the profit should be reserved to offset the deficit.

The amount of remuneration of each director and of compensation for employees entitled to receive the abovementioned employee compensation is approved by the Board of Directors. The recipients of shares and cash may include the employees of the Company's affiliated companies who meet certain conditions.

For the years ended December 31, 2023 and 2022, the Company estimated its employee remuneration amounting to $8,321 thousand and $15,810 thousand, respectively, and directors' remuneration amounting to $3,566 thousand and $6,776 thousand, respectively. The estimated amounts mentioned above are calculated based on the net profit before tax, excluding the remuneration to employees and directors of each period, multiplied by the percentage of remuneration to employees and directors as specified in the Company's articles. These remunerations were expensed under operating costs or operating expenses during 2023. If there would be any changes after the reporting date, the changes shall be accounted for as changes in accounting estimates and recognized as profit or lost in the following year.

The amounts mentioned above were identical to those of the actual distributions for 2023 and 2022. The related information can be accessed from the Market Observation Post System website.

(Continued)

MIN AIK PRECISION INDUSTRIAL CO., LTD.
Notes to the Financial Statements

(p) Non-operating income and expenses

(i) Other income

The details of other income were as follows:

		2023	2022
Rent income	$	2,994	3,375
Other income		9,384	10,129
	$	**12,378**	**13,504**

(ii) Other gains and losses

The details of other gains and losses were as follows:

		2023	2022
Foreign exchange gains, net	$	2,046	53,223
Gains (Losses) on non-financial assets impairment		157	(6,003)
Gains (Losses) on disposals of property, plant and equipment, net		2,697	(386)
Others		-	(880)
	$	**4,900**	**45,954**

(q) Financial instruments

(i) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, which is derived primarily from the Company' s accounts receivable.

1) Credit risk exposure

The maximum exposure to credit risk is mainly from carrying amount of financial assets. As of December 31, 2023 and 2022, the maximum amounts that exposed to credit risk were $540,668 thousand and $433,254 thousand, respectively. Since the Company's bank deposits are deposited in many different finance institutions with good credit rating. Therefore, there is no significant credit risk.

2) Concentration of credit risk

The concentration of credit risk is mainly affected by creditors' rating and the client's industry. As of December 31, 2023 and 2022, both 97% of the Company' s accounts receivable were concentrated on top five sales clients.

3) Please refer to note 6(b) for the details of the accounts receivable aging and loss allowance.

MIN AIK PRECISION INDUSTRIAL CO., LTD.
Notes to the Financial Statements

(ii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company manages sufficient cash and cash equivalents so as to cope with its operations and mitigate the effects of fluctuations in cash flows. The Company's management supervises the banking facilities and ensures compliance with the terms of loan agreements.

The following table shows the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements.

	Carrying amount	Contractual cash flows	within 1 year	1-2 years	2-5 years	Over 5 years
December 31, 2023						
Non-derivative financial liabilities						
Bank loans	$ 520,000	527,419	398,460	66,156	62,803	-
Accounts payable(including related parties)	102,095	102,095	102,095	-	-	-
Lease liabilities	24	24	24	-	-	-
Other financial liabilities	151,209	151,209	151,209	-	-	-
	$ 773,328	**780,747**	**651,788**	**66,156**	**62,803**	**-**
December 31, 2022						
Non-derivative financial liabilities						
Bank loans	$ 664,000	675,959	380,467	167,083	128,409	-
Accounts payable	86,932	86,932	86,932	-	-	-
Lease liabilities	83	84	60	24	-	-
Other financial liabilities	179,085	179,085	179,085	-	-	-
	$ 930,100	**942,060**	**646,544**	**167,107**	**128,409**	**-**

The Company does not expect the cash flows included in the maturity analysis to occur significantly earlier or at significantly different amounts.

(iii) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, and equity prices, will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

1) Exposure to foreign currency risk

The Company's significant exposure to foreign currency risk was as follows:

	December 31, 2023			December 31, 2022		
	Foreign currency	Exchange rate	NTD	Foreign currency	Exchange rate	NTD
Financial assets						
Monetary items						
USD	$ 8,382	30.71	257,360	9,918	30.71	304,571
Financial liabilities						
Monetary items						
USD	172	30.71	5,276	154	30.71	4,716

(Continued)

2) Sensitivity analysis

The Company's exposure to foreign currency risk arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents, accounts receivable, bank loans and accounts payable that are denominated in foreign currency. A weakening or strengthening of 1% of the NTD against the abovementioned foreign currency as of 31 December, 2023 and 2022 would have decreased or increased the net profit before tax by $2,521 thousand and $2,999 thousand, respectively. This analysis is performed on the same basis for 2022.

3) Foreign exchange gain and loss on monetary items

Since the Company has many kinds of functional currency, the information on foreign exchange gain (loss) on monetary items is disclosed by total amount. For years 2023 and 2022, foreign exchange gain (loss) (including realized and unrealized portions) amounted to $2,046 thousand and $53,223 thousand, respectively.

4) Interest rate analysis

Please refer to the notes on liquidity risk management for the interest rate exposure of the Company's financial assets and liabilities.

The following sensitivity analysis is based on the exposure to the interest rate risk of derivative and non-derivative financial instruments on the reporting date. Regarding assets with variable interest rates, the analysis is based on the assumption that the amount of assets outstanding at the reporting date was outstanding throughout the year. The rate of change is expressed as the interest rate increases or decreases a quarter-point when reporting to management internally, which also represents the Company management's assessment of the reasonably possible interest rate change.

If the interest rate had increased or decreased by a quarter-point, the Company's profit before income tax would have decreased or increased by $82 thousand and $554 thousand for the year ended 2023 and 2022 with all other variable factors remaining constant. This is mainly due to the changes in the Company's variable-interest-rate loans and deposits.

The Company's fixed-interest-rate financial liabilities are measured at amortized cost. The changes in market rate do not affect the Company's profit or loss on the reporting date. Therefore, the Company does not disclose the sensitivity analysis of the changes in fair value.

MIN AIK PRECISION INDUSTRIAL CO., LTD.
Notes to the Financial Statements

	December 31, 2022				
		Fair Value			
	Book Value	**Level 1**	**Level 2**	**Level 3**	**Total**
Financial liabilities measured at amortized cost					
Long term and short term borrowing	$ 664,000				
Accounts Payable	86,932				
Lease liabilities	83				
Other financial liabilities	179,085				
Subtotal	**$ 930,100**				

1) Valuation techniques for financial instruments measured at fair value

The fair value of financial instruments traded in an active market is based on the quoted market price. The quotation announced by the stock exchange center or exchange center, might be regarded as the fair value of the listed equity securities which is traded in an active market.

If quoted price of a financial instrument can be obtained in time and often from exchanges, brokers, underwriters, industrial union, pricing institute, or authorities, and such price can reflect those actual trading and frequently happen in the market, then the financial instrument is considered to have quoted price in active market. If a financial instrument does not accord with the definition aforementioned, then it is considered to be without quoted price in active market. In general, market with low trading volume or high bid-ask spreads is an indication of non-active market.

The Company’s valuation techniques and assumptions used for financial instruments measured at fair value are as follows:

- Measurements of fair value of financial instruments with an active market, such as listed company stock, beneficiary certificate etc., its fair value depends on the market quotation.

- Measurements of fair value of financial instruments without an active market are based on a valuation technique or quoted price from a competitor. Fair value measured by a valuation technique can be extrapolated from similar financial instruments, the discounted cash flow method, or other valuation technique including a model using observable market data at the reporting date.

2) There were no transfers between each fair value levels in 2023 and 2022.

(r) Financial risk management

(i) Structure of risk management

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company Audit Committee oversees how management monitors compliance with the Company's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Company Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

(ii) The Company have exposures to the following risks from its financial instruments:

1) Credit risk

2) Liquidity risk

3) Market risk

The following likewise discusses the Company's objectives, policies and processes for measuring and managing the above mentioned risks. For more disclosures about the quantitative effects of these risks exposures, please refer to the respective notes 6(q) in the accompanying consolidated financial statements.

(s) Capital management

The Company's capital management policy is to ensure that it has sufficient and necessary financial resources to fund its working capital needs, capital asset purchases and debt service requirements associated with its existing operations over the next 12 months, wherein it also take the debt ratio into consideration to maintain investors, creditors and market confidence, as well as to sustain the future development of the business. The Company's capital management strategy was consistent with that of the prior year, in which the debt ratios of 32% and 35% were taken into account as of December 31, 2023 and 2022, respectively.

(t) Investing and financing activities not affecting current cash flow
